

JFA Meeting May 2nd, 2011 Minutes

13 members and guests in attendance

- Show and tell: Mike Gill showed his pre-owned Neptune seaplane that he got off of Ebay. The plane has a Super Tiger .51, and it was a steal at \$60. Mike is going to be putting on nighttime running lights. Mike also showed his nearly-famous F-22 Raptor jet as photographed at Florida Jets and listed in the July 2011 issue of Fly R/C magazine.**
- Bob Maxwell joined the club. And by the way that's Bob Maxwell, and not Bob McKenzie. Welcome to Bob.**
- New business: The club treasurer proposed switching the club meeting schedule to a bi-monthly format, but the measure got a tepid reception. And so it will not be discussed again until early 2012.**
- Safety report: everyone has been most courteous at the flight line, so keep up the good work.**
- Field report: The field looks good - thanks to Dick for mowing and Jim for supervising...and Thanks to Steve Perry for refurbishing the work tables!**
Communications: Joe Nall is coming up, and everyone should go for at least one day to see the gargantuan event, and to have a good time. Also, members should note that there is a new, official

roster on the website, with club logo, and members will need that and the authorization letter to get their visitors pass.

- **The meeting was concluded just as the lovely Kenda was bringing out the entrees.**
